The University of Western Australia - University Admissions 2003

The following is a list of minimum Tertiary Entrance Ranks applicable for the 2003 first round of offers for school leaver applicants who applied for university admission. For those courses where selection is not based solely on the Tertiary Entrance Rank the letters 'N/A' appear. A dash " – " indicates that no offer was made in the first round.

Please note that these scores do not apply to entry in 2004 and will change due to changes in quotas, popularity of courses etc. This list is meant as a guide only.
